DANGER OF RUPTURE WITH U. S. PAST, IS VIEW HELD BY VIENNA OFFICIALS

Vienna, Dec. 16 (delayed) .- Moderation marks the editorial comment on the reply to the American note on the Ancona sinking, printed in this morning's newspapers.

The impression was gathered at the Foreign Office to-day that it was expected that the reply, which has been given to Frederic C. Penfield, the American Ambassador, would lead to a stage in which the American claims could be given the attention desired by Washington. At the same time it seemed evident that the Austro-Hungarian government was firm in the decision to permit no application of a precedent in which it is not involved.

At the American Embassy the belief seemed to prevail that the situation was susceptible of solution and that the danger of a rupture of relations was over.

conditions are propitious. Petrograd dispatches note German activity, particularly in the Dvinsk district, which would accord with the German ambition to reach the line of the Dvina River, while all accounts from neutral countries mention a continued movement of men and guns to the west. In the latter theatre of operations it seems only a question at what points

the offensive is to be taken. Many persons believe that the Germans, having found the lines in Flanders and Artois nuts too hard to crack, contemplate moving in the St. Mihiel region, where their line penetrates to the most violent engagement for several the River Meuse and where there has been considerable activity during the
